Venue: Buyawayu, Arusha, Tanzania

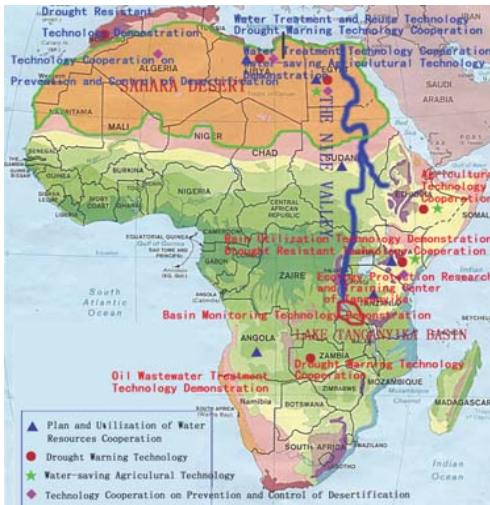

Side event announcement

In response to the international call for “Green Economy” and “Sustainable Development”, UNEP and China started the UNEP-China-Africa partnership through ROA/UNEP and the China’s Ministry of Science and Technology(MOST) to strengthen the capacity of African countries on ecosystem management in 2008.

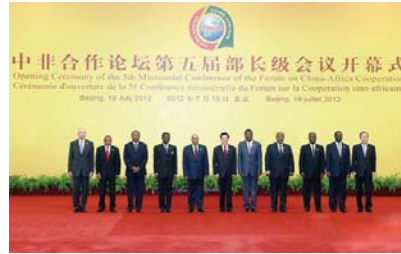

The side event of UNEP-China-Africa Cooperation on Water will discuss:

- What is at stake- the current status quo of the development of green economy in China and Africa
- What has been done- the key achievements and challenges experienced to date under the program
- Beyond Rio+20- Discussion on possible China-Africa cooperation opportunities and mechanisms in the context of green economy

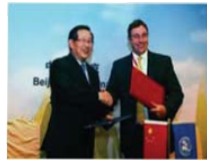

Main Research Area:
One River - One Lake - One Desert

Background

The 5th Ministerial Conference of the Forum on China-Africa Cooperation in Beijing, July 2012

Gang Wan, Minister of Science and Technology signing MOU with the UNEP in 2007, launched the Technical Cooperation on Water resources

Shengxian Zhou, Minister of Environment Protection meeting Achim Steiner, the Executive Director of the UNEP

President Gang Pei of Tongji University visit Achim Steiner, the Executive Director of the UNEP

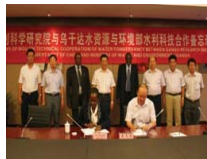

Prof. Jialun Zhou visit Ministry of Agriculture Egypt

Prof. Fengting Li investigate WWTP in Tanzania

MOU signing with Kenya Agricultural Research Institute

MOU signing with Ministry of Water and Environment Uganda

Cooperation of desert control in Ethiopia

MOST-UNEP Technical Cooperation on Water Resources in Africa

According to the MOU signed between the Ministry of Science and Technology(MOST) of China and the United Nations Environment Programme (UNEP) in 2011, Technical Cooperation on Water resources has been launched.

The aim is:

- To mitigate the adverse effects on Africa brought by the shortage of fresh water, environmental degradation, agricultural issues and climate change.
- To provide technology support to African countries and enable them to realize Millennium Development Goals.

Six subprojects:

1 Technical Cooperation on Water Resources Planning for African Typical Countries and Catchments

2 Safe Water Supply and Demonstration of Water Resources Use in Typical African Countries

3 Technical Cooperation on Protection of Water Resource and Ecosystem with Typical Countries/Basin in Africa

4 Drought Early Warning System and Adaptive Technology Cooperation in Drought Areas of Africa

5 Cooperative Development and Demonstration of Dryland Water-saving Agricultural Techniques in Africa

6 Technical Cooperation on Desertification Combating and Deserculture Development in African Desert-stricken Countries

Cooperation Agreement Renewal between UNEP and Tongji University, 2011

Global Universities Partnership on Environment and Sustainability launched at Tongji University, 2012
